

May 2010

Wow! The Symposium flew by like a flash and it seems like it was months ago. A "Thank You" goes out to everyone who participated and helped to make this symposium a successful event. The planning for next year is already underway. We received a lot of great comments on what went well and what we can improve for our next symposium. We will be soliciting your ideas at the May meeting on what programs/projects we should try to procure demonstrators for next year.

At the May and June meetings, please share projects that you completed that show case what you learned during the symposium. Also, don't hesitate to ask questions if you're having trouble replicating some of the techniques and projects demonstrated during the symposium. I know your questions and comments will be very valuable to all of us.

Over the next couple of months, the Dakota Woodturners will be demonstrating at several events. If you would be willing to help-out during the events please review the newsletters for dates and location and then let an E-board member know and we will get you in the loop. The Up-ward Bound, Center Settler Days, and the Boy Scouts at the Capital are a few of the events coming soon.

I know this is a pretty short note, work is getting in the way of fun and my turning, but I guess I have to keep the lights on at home.

As always, "Keep the Chips and Ribbons Flying" and "Do it Safely."

Ron Day,  
President
